

UCare for Seniors Value, Value Plus, and Classic Plans Information for Providers

UCare for Seniors is a Medicare Advantage plan offered by UCare. Medicare Advantage plans offer more coverage choices and an expanded set of benefits to people on Medicare. In fact, they cover a number of services that Medicare beneficiaries might otherwise have to pay for out of their own pockets.

Through a Medicare Advantage plan, patients assign their Medicare benefits to UCare, and UCare receives reimbursement from the federal government in return for providing administrative services and a contracted network. Patients are issued a UCare member identification card, which they use in lieu of their Medicare card to access health care services and benefits.
