

May 6th, 2010 from 8:00AM - 4:15PM
Embassy Suites - Minneapolis Airport
7901 34th Ave. South, Bloomington, MN 55425

Radon is responsible for 21,000 lung cancer deaths every year and is the number one cause of lung cancer among non-smokers, and the second leading cause overall of lung cancer in the United States.

The Radon Forum for Medical Professionals will serve to increase the awareness of physicians about the health risks associated with prolonged radon exposure.

Continuing Medical Education: This program is not yet approved for CME credit. Conference organizers plan to request six hours of AAPA Category 1 CME credit from the Physician's Assistant Review Panel. The total number of approved credits is yet to be determined.

For more information about the Forum, and to register, please visit www.lungmn.org/events.
